

## Sitemap

**Sitemap** is the list of pages within your website. This is where you can view the structure of your site's content, find where the pages are located, arrange and publish them.

To go to your Sitemap, click **Content > Sitemap** from the top Navigation tabs:

The screenshot shows the Sitemap interface with several callouts:

- Navigation Tabs:** Dashboard, Content, Calendar, Settings, Tools. A red arrow points from the 'Content' tab to the Sitemap menu item.
- Content Menu:** Sitemap, Pages, Articles, Files, Submitted Forms.
- Sitemap Header:** Expand All, Publish, Add Items.
- Item List:**

Home	Online	Edit	Page
News	Online	Edit	
Admissions	Online	Edit	
About	Online	Edit	Page
- Menu Options:** Automatically add new top-level pages to this menu.
- Callouts:**
  - Click here to add items to the menu (points to Add Items)
  - Click here to publish the menu (points to Publish)
  - Toggle to set an item online (points to Online toggle)
  - Click here to see the navigation label (points to Page dropdown)
  - Click Edit to go the Page content (points to Edit button)
  - Hold and drag an item to rearrange the order (points to item list)
  - Click here to add new top-level pages (points to Add Items)
  - Type here the name of the new Page and click the Add button (points to Add New Page form)

**Note:** You can also add new Custom Links, Articles, and Article Categories.
